Subject Report on the annual accounts 2021/2022

Dear Board,

#### Engagement

In accordance with your instructions we have compiled the annual account 2021/2022 of the foundation, including the balance sheet with counts of  $\in$  11,146 and the profit and loss account with a negative result of  $\in$  421.

#### Accountant's compilation report

The financial statements of St. The Global Alliance for Improved Nutrition have been compiled by us using the information provided by you. The financial statements comprise the balance sheet as at June 30, 2022 and the profit and loss account for the year 2021/2022 with the accompanying explanatory notes. These notes include a summary of the accounting policies which have been applied.

This compilation engagement has been performed by us in accordance with Dutch law, including the Dutch Standard 4410, "Compilation engagements", which is applicable to accountants. The standard requires us to assist you in the preparation and presentation of the financial statements in accordance with Part 9 of Book 2 of the Dutch Civil Code. To this end we have applied our professional expertise in accounting and financial reporting.

In a compilation engagement, you are responsible for ensuring that you provide us with all relevant information and that this information is correct. Therefore, we have conducted our work, in accordance with the applicable regulations, on the assumption that you have fulfilled your responsibility. To conclude our work, we have read the financial statements as a whole to consider whether the financial statements as presented correspond with our understanding of St. The Global Alliance for Improved Nutrition. We have not performed any audit or review procedures which would enable us to express an opinion or a conclusion as to the fair presentation of the financial statements.

During this engagement we have complied with the relevant ethical requirements prescribed by the "Verordening Gedrags- en Beroepsregels Accountants" (VGBA). You and other users of these financial statements may therefore assume that we have conducted the engagement in a professional, competent and objective manner and with due care and integrity and that we will treat all information provided to us as confidential.

St. The Global Alliance for Improved Nutrition Amsterdam

# General

### Organization characterisation

The organization is a foundation which sets itself the goal to reduce malnutrition through sustainable strategies aimed at improving the health and nutrition of populations at risk.

The composition of the Board is as follows:

The chairman	Mr. S.A. Godfrey
Secretary	Ms. E.J. Maddison
Treasurer	Mr. P.A. Young

#### Activities GAIN Netherlands 2021 - 2022

The Stichting GAIN Netherlands (GAIN NL) is a daughter organization of The Global Alliance for Improved Nutrition (GAIN) and as such GAIN Netherlands performs activities and services that are strategically aligned with GAIN.

Over the past year, the team in the GAIN Netherlands office has significantly grown from 7 to 15 people. Most new joiners are part of GAIN's global team and therefore the team in the Utrecht office is not only representing the Workforce Nutrition, Urban Governance and Dutch Engagement programmes anymore, but also the Nutritious Food Financing and Large Scale Food Fortification programmes and our Country Operations. A larger and more diverse team in the Utrecht office has also created a better connection to the other offices and teams of GAIN globally.

One of the main activities during FY 2021/2022 was supporting the work for the UN Food Systems Summit. GAIN was selected to lead Action Track 1 'Ensure access to safe and nutritious food for all'. The Netherlands office has been closely involved through general coordination, bringing Dutch stakeholders to the global arena, supporting the Dutch government, and organizing side events and preparing possible commitments via our active programmes (Workforce and Urban). GAIN NL has also worked closely together with the Netherlands Food Partnership to inform all relevant Dutch stakeholders on the process, the opportunities, and the outcomes. The pre-summit took place in July 2021 and the official summit in September 2021. Besides UNFSS, 2021 has been a year of important global summits: CFS, COP26 and the Nutrition for Growth (N4G) summit. GAIN NL has supported both GAIN International and our key Dutch partners to work towards SMART commitments and concrete action plans for reaching the SDGs in 2030.

The other highlight of FY 2021/2022 was the successful process to receive new funding from the Dutch Ministry of Foreign Affairs. Due to the strong relationship GAIN has built over the past decade with the Dutch Ministry, the quality of work GAIN has delivered under the previous funding rounds and the unique position of GAIN in the global nutrition sector, we have successfully secured another 5 year of programme funding.

GAIN NL has also continued its active role in the Netherlands Working Group on Nutrition (NWGN). Since January 2022 GAIN NL is hosting the secretariat, providing the funding and co-coordinating an external evaluation of the network and a strategy refresh.

Lastly, GAIN NL continued its work in the Netherlands on lobby and advocacy for nutrition. By working closely together with the Netherlands Food Partnership (NFP), by giving guest lectures to Bachelor and Master students and in general by representing GAIN at relevant events and fora throughout the year.

#### Outlook 2022 - 2023

2022 marks the year of GAIN's 20th birthday. Every GAIN country will organize a GAIN@20 event relevant to their country. In the Netherlands we have planned to hold an external event in October 2022 where we will bring together all our Dutch partners for a mixture of learning, networking and celebrating.

November 2022 will be an important month for GAIN's environment work. A delegation of GAIN will be present at COP27, and GAIN NL will support in the preparations and the connections to the relevant Dutch stakeholders.

Overall, we are looking forward to another exciting year where we can hopefully build on both the global and local successes we had so far.

Utrecht, January 17, 2023

### Staff

During the 2021/2022 financial year, on average 11 employees were employed (2020/2021: 8).

#### **Group structure**

The foundation St. The Global Alliance for Improved Nutrition is part of an international entity group. The head office is situated in Geneva.

## General accounting principles for the preparation of the annual accounts

The annual accounts have been prepared in accordance with RJk C1 voor Kleine Organisaties-zonder winsstreven (Dutch guideline for annual reporting RJk C1 for non-profit organizations). Valuation of assets and liabilities and determination of the result takes place under the historical cost convention. Unless presented otherwise at the relevant principle for the specific balance sheet item, assets and liabilities are presented at nominal value.

Income and expenses are accounted for on accrual basis. Profit is only included when realized on the balance sheet date. Losses originating before the end of the financial year are taken into account if they have become known before preparation of the financial statements.

Revenues from goods are recognised upon delivery. The cost price of thes goods is allocated to the same period. Revenues from services are recognised in proportion to the services rendered. The cost price of these services is allocated to the same period.

# Principles of valuation of assets and liabilities

#### **Tangible fixed assets**

Tangible fixed assets are presented at acquisition price less cumulative depreciation and, if applicable, less impairments in value. Depreciation is based on the estimated useful life and calculated as a fixed percentage of cost, taking into account any residual value. Depreciation is provided from the date an asset comes into use.

Tangible fixed assets are capitalised if the economic ownership held by the company, and its group companies, is governed by a financial lease agreement. The commitment arising from the financial lease agreement is accounted for as a liability. The interest included in the future lease instalments is charged to the result over the term of the financial lease agreement.

#### **Securities**

Receivables are initially valued at the fair value of the consideration to be received, including transaction costs if material. Receivables are subsequently valued at the amortised cost price. Provisions for bad debts are deducted from the carrying amount of the receivable.

#### Cash and cash equivalents

Cash and cash equivalents are valued at nominal value. Cash and cash equivalents consist of credit balances on bank accounts, money underway, bills of exchange and cheques and demand deposits. Valuation takes into account cash that is not freely disposable. If cash and cash equivalents are not anticipated to be freely disposable for more than one year, they are presented under the financial fixed assets.

#### **Current liabilities**

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs. This is usually the nominal value.

#### Accounting principles for the determination of the result

#### General

The result is the difference between the realizable value of the goods/services provided and the costs and other charges during the year. The results on transactions are recognized in the year in which they are realized.

#### **Employee expenses**

#### **Pension charges**

St. The Global Alliance for Improved Nutrition applies the liability approach for all pension schemes. The premium payable during the reporting year is recognized as an expense. Changes in the pension provision are also recognized in the statement of income and expenses.

#### Amortization and depreciation

The amortization of the tangible fixed assets is calculated using fixed percentages of the purchase price based on the expected economic life cycle. Book profit and losses on disposed tangible fixed assets are recognized under depreciation.

Depreciation percentage: Inventory

20%

#### **Financial income and expenses**

#### Interest income and interest expenses

Interest income and expenses concern interest income and expenses for loans (issued and received) during the reporting period.

# Notes to the balance sheet as at June 30, 2022
