

# KEEP COVID-19 OUT OF OUR MARKETS

## Hygiene

The virus spreads when the infected person coughs, sneezes, talks or breathes.

Be a leader and always wear a mask or other face covering that covers your nose and mouth to protect yourself and others.

Change your mask every 4 hours.

Cough or sneeze into your elbow.

Never cough or sneeze into your hands or over your produce.

If you use a tissue to blow your nose, always dispose of used tissues properly.

Wash your hands frequently with soap and water for 20 seconds.

Avoid touching your eyes, nose, or mouth with your hands.

If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.

COVID-19 virus can survive on some surfaces. Use soap and water (or an alternative method) to disinfect surfaces regularly.

Frequently clean utensils, tables, door handles, handrails, payment devices, and other high-touch surfaces and objects.

# KEEP COVID-19 OUT OF OUR MARKETS

## Avoid Close Contact

Show the right example, and avoid close contact by staying at least 2 metres away from people who are not part of your household.

Talk to the market authority about adding markings on the ground or other systems to ensure distancing.

Consider offering different ways for ordering and pick-up to avoid crowding the market.

## Payment

When exchanging coins or bank notes, avoid touching your face afterwards.

Use a tray to receive money and give change.

Clean the tray after each use.

Encourage the use of mobile phone payment or other contactless payment methods.
