I. PROJECT BACKGROUND AND SCOPE OF WORK

1. ABOUT GAIN

The Global Alliance for Improved Nutrition (GAIN) is a Swiss-based foundation launched at the UN in 2002 to tackle the human suffering caused by malnutrition. Working with both governments and businesses, we aim to transform food systems so that they deliver more nutritious food for all people.

At GAIN, we believe that everyone in the world should have access to nutritious and safe food. We work to understand and deliver specific solutions to the daily challenge of food insecurity faced by poor people. By understanding that there is no “one-size-fits-all” model, we develop alliances and build tailored programmes, using a variety of flexible models and approaches.

We build alliances between governments, local and global businesses, and civil society to deliver sustainable improvements at scale. We are part of a global network of partners working together to create sustainable solutions to malnutrition. Through alliances, we provide technical, financial and policy support to key participants in the food system. We use specific learning, evidence of impact, and results of projects and programmes to shape and influence the actions of others.

Headquartered in Geneva, Switzerland, GAIN has representative offices in Denmark, The Netherlands, the United Kingdom, and the United States. In addition, we have country offices in Bangladesh, Ethiopia, India, Indonesia, Kenya, Mozambique, Nigeria, Pakistan, and Tanzania. Programmes and projects are carried out in a variety of other countries, particularly in Africa and Asia.

2. BACKGROUND

GAIN’s programmes focus on transforming food systems, so that they deliver better diets for everyone - particularly for the most vulnerable to malnutrition. Recognizing that food systems contribute to and are vulnerable to ongoing climate and environmental changes, GAIN is refreshing its environmental strategy to ensure a greater integration of environmental sustainability into its food systems actions to ensure that environmental implications and potential trade-offs are duly considered in decision making.

GAIN is issuing this Request for Proposal (RFP) and will be the administrative lead organisation for this RFP. The purpose of this RFP is to engage services of a Service Provider to support the development of standard procedures to evaluate the potential impact of GAIN’s programmes and projects on the environment and manage their environmental risks.

3. SCOPE OF WORK AND DELIVERABLES

GAIN seeks a service provider with demonstrated experience in supporting organisations to develop tailored and integrated approaches for evaluating the potential environmental impacts of their project and programmes, including tools and guidelines that can be used by non-technical audiences.

The purpose of this RFP is to engage services of a Service Provider to support the development of guidelines to facilitate the early and systematic identification and assessment of environmental impact and the integration and management of environmental risks into GAIN’s project design and implementation.
3.1. OBJECTIVES

The objective of this work is:

- To develop GAIN’s environmental guidelines for the early and systematic identification and assessment of environmental impact and the integration of the management of environmental risks into project design and implementation.

The guidelines should be aligned with GAIN’s project cycle. The consistent application of these guidelines is intended to generate knowledge on a continuing basis to enhance the quality of GAIN’s projects and programmes. There are intended to be used by programmatic staff with limited expertise on environmental assessments. The guidelines should cover at least:

i) procedures for identification, assessment and management of environmental impact during project design. These procedures should include a screening process for identifying and classifying environmental risks associated with a project. During project design, GAIN should be able to screen for the risks and impacts of the proposed project based on the available information using a checklist.

ii) procedures for integrating the management of environmental risks into the project cycle. This might involve developing a mitigation hierarchy in which i) avoidance of adverse environmental impacts is the priority; ii) where avoidance is not feasible, minimize or mitigate risks to acceptable levels; and iii) where residual impacts remain, compensate for/offset them whenever technically and financially feasible.

The service provider is expected to work collaboratively with GAIN to propose procedures tailored to GAIN’s project cycle.

The Service Provider will be expected to carry out tasks such as:

1. Review relevant literature related to GAIN’s programmes (existing and planned);
2. Interview GAIN staff to better understand how programmes are adapted to each specific in-country context and the implications of this for the environment review (guidelines);
3. Present early drafts of the proposed environmental guidelines for feedback;
4. Ensure proposed guidelines meet environment-related requirements of key GAIN donors;
5. Prepare final environmental guidelines and any additional supporting documents

III. TERMS AND CONDITIONS OF THIS SOLICITATION

1. NOTICE OF NON-BINDING SOLICITATION

GAIN reserves the right to reject any and all bids received in response to this solicitation and is in no way bound to accept any proposal. GAIN additionally reserves the right to negotiate the substance of the successful applicants’ proposals, as well as the option of accepting partial components of a proposal if deemed appropriate.

2. CONFIDENTIALITY

All information provided as part of this solicitation is considered confidential. In the event that any information is inappropriately released, GAIN will seek appropriate remedies as allowed. Proposals, discussions, and all information received in response to this solicitation will be held as strictly confidential.

3. RIGHT TO FINAL NEGOTIATIONS ON THE PROPOSAL

GAIN reserves the right to negotiate on the final costs, and the final scope of work of the proposal. GAIN reserves the right to limit or include third parties at GAIN’s sole and full discretion in such negotiations.

4. EVALUATION CRITERIA

Proposals will be reviewed by the Selection Team. The following indicate a list of the significant criteria against which proposals will be assessed. This list is not exhaustive or 100% inclusive and is provided to enhance the applicants’ ability to respond with substance.

Applicants are required to submit the following information, conforming to the guidelines given in this section:

- Understanding of the scope of work:
  - Proposal shall demonstrate a clear understanding of the assignment’s objective and deliverables as outlined in Section I.

- Demonstrate a clear understanding of the technical requirements of this RFP:
