I. PROJECT BACKGROUND AND SCOPE OF WORK

1. ABOUT GAIN

The Global Alliance for Improved Nutrition (GAIN) is a Swiss-based foundation launched at the UN in 2002 to tackle the human suffering caused by malnutrition. Working with both governments and businesses, we aim to transform food systems so that they deliver more nutritious food for all people.

At GAIN, we believe that everyone in the world should have access to nutritious and safe food. We work to understand and deliver specific solutions to the daily challenge of food insecurity faced by poor people. By understanding that there is no “one-size-fits-all” model, we develop alliances and build tailored programmes, using a variety of flexible models and approaches.

We build alliances between governments, local and global businesses, and civil society to deliver sustainable improvements at scale. We are part of a global network of partners working together to create sustainable solutions to malnutrition. Through alliances, we provide technical, financial and policy support to key participants in the food system. We use specific learning, evidence of impact, and results of projects and programmes to shape and influence the actions of others.

Headquartered in Geneva, Switzerland, GAIN has representative offices in Denmark, The Netherlands, the United Kingdom, and the United States. In addition, we have country offices in Bangladesh, Ethiopia, India, Indonesia, Kenya, Mozambique, Nigeria, Pakistan, and Tanzania. Programmes and projects are carried out in a variety of other countries, particularly in Africa and Asia.

2. BACKGROUND

The Global Alliance for Improved Nutrition (GAIN) is issuing this Request for Proposal (RFP) and will be the administrative lead organisation for this RFP.

The purpose of this RFP is to engage services of a Service Provider to develop 10 supply chain analyses, based on GAIN’s SCAN (Supply Chain Analysis for Nutrition) methodology. The reports will be created from existing data which GAIN will share with the selected service provider.

3. SCOPE OF WORK AND DELIVERABLES

The successful applicant shall present 10 updated supply chain analyses, in the format of GAIN’s briefing papers, that translate existing supply chain analyses into the SCAN (Supply Chain Analysis for Nutrition) methodology developed by GAIN.

3.1. OBJECTIVES

The 10 reports will demonstrate, using the SCAN methodology, the improvements that can be made in 10 food value chains to improve low-income consumers’ access to nutritious foods by improving the availability, desirability, and quality of those foods.

3.2. DELIVERABLES

10 new supply chain analyses, in the form of a GAIN briefing paper, each 4 to 5 pages in length.

- Review 10 existing value chain assessments
- Understand the SCAN (Supply Chain Analysis for Nutrition) methodology
- Rewrite the 10 existing documents, placing the relevant findings and outcomes in a new document in line with the SCAN approach.

- Highlight how the following aspects of the nutritious food can be improved through interventions. In most cases these cases should be catalysed by development partners and carried out or sustained by the private sectors.
 - o Availability
 - o Desirability
 - o Quality
- Highlight where in the supply chains the improvements can be made, i.e.
 - o Production
 - o Transport and Logistics
 - o Value addition and processing
 - o Distribution
 - o Retail
- Make clear how the improvements can be sustained and how they will continue to profitable business models among all value chain actors.
- Note aspects that can be acted upon to improve the availability of safe and nutritious foods to low-income consumers:
 - o Products
 - o Processes
 - o People
 - o Policies
- Make clear, by highlighting information in the existing reports, which of the above aspects is likely to be the most practical 'lever' for improving the food's positive nutrition impact.
- Each report should be 4 to 5 pages in length and using the style and format of the GAIN briefing paper series (template and examples will be provided to the consultant)

Timeline (working days only)	Phase	Deliverable

 - o Roles and responsibilities of each team member shall be clearly defined. GAIN shall have one main contact person clearly identified in the proposal.
- A duly completed offer of services.
- Adherence to the page limits of the proposal format.
- Competence and demonstrated quality of work of the consultant or firm
 - o Demonstrated fluency in English, and demonstrated ability to produce high-quality documents ready for publication: Final deliverables must be ready for publication and should require no further copy-editing.

GAIN reserves the right to contact the individuals and contractor(s) in order to verify the information provided as part of the Proposal.

5. REVIEW PROCESS

The review process will involve a Review Panel with participants selected by GAIN.

6. LIMITATIONS WITH REGARD TO THIRD PARTIES

GAIN does not represent, warrant, or act as agent for any third party as a result of this solicitation. This solicitation does not authorise any third party to bind or commit GAIN in any way without GAIN's express written consent.

7. COMMUNICATION

All communication regarding this solicitation shall be directed to appropriate parties at GAIN. Contacting third parties involved in the RFP, the review panel, or any other party may be considered a conflict of interest and could result in disqualification of the proposal.

8. FINAL ACCEPTANCE

Award of a Proposal does not imply acceptance of its terms and conditions. GAIN reserves the right to negotiate on the final terms and conditions including the costs and the scope of work when negotiating the final contract to be agreed between GAIN and the applicant.

9. VALIDITY PERIOD

The offer of services will remain valid for a period of 60 days after the Proposal closing date. In the event of award, the successful applicant will be expected to enter into a contract subject to GAIN's terms and conditions.

10. INTELLECTUAL PROPERTY

Subject to the terms of the contract to be concluded between GAIN and the applicant, the ownership of the intellectual property related to the scope of work of the contract, including technical information, know-how, processes, copyrights, models, drawings, source code and specifications developed by the applicant in performance of the contract shall vest entirely with GAIN.

11. SCOPE OF CHANGE

Once the contract is signed, no increase in the liability of GAIN or in the fees to be paid by GAIN for the services resulting from any change, modification or interpretation of the documents will be authorised or paid to the applicant unless such change, modification or interpretation has received the express prior written approval of GAIN.
