

Global Alliance for Improved Nutrition

Job title:	Intern – Communication & Knowledge Management (Nutrition and Food Systems)
-------------------	--

Classification:		Direct reports:	0
Work location	New Delhi, India	Travel required:	20%

The Global Alliance for Improved Nutrition (GAIN) is a Swiss-based foundation launched at the United Nations in 2002 to tackle the human suffering caused by malnutrition. Working with governments, businesses and civil society, we aim to transform food systems so that they deliver healthier diets for all people, especially the most vulnerable.

Headquartered in Geneva, Switzerland, GAIN has offices in countries with high levels of malnutrition: Bangladesh, Benin, Ethiopia, India, Indonesia, Kenya, Mozambique, Nigeria, Pakistan, Rwanda, Tanzania and Uganda. To support work in those countries, we have representative offices in the Netherlands, the United Kingdom, and the United States.

At GAIN, we believe that everyone in the world should have access to nutritious, safe, and affordable food. Today, one in three people - drawn from nearly every country on the planet - are unable to consume enough nutritious food. We work to develop and deliver solutions to this daily challenge.

DESCRIPTION
<p>Overall purpose</p> <p>The intern will support GAIN India’s work in developing high-quality, evidence-based knowledge products and communication materials related to food systems, nutrition, and food fortification at national and state levels. The role combines data analysis, synthesis, and strong written communication to translate complex datasets and technical evidence into clear, actionable insights for key stakeholders including policymakers, development partners, donors and practitioners.</p>
<p>Tasks and responsibilities</p> <p>A. Knowledge product development - food systems, nutrition & fortification</p> <ul style="list-style-type: none"> • Support analysis and synthesis of national and state-level food systems dashboard data, including indicators related to availability, affordability, safety, and quality of diets. • Assist in developing a range of knowledge products, including: <ul style="list-style-type: none"> ○ Policy briefs & documents ○ Fact sheets ○ Op-eds ○ Slide decks and presentations ○ Technical notes ○ Dashboard narratives and data explainers • Contribute to national-level food systems insights and support development of state-level outputs for up to six selected states.
